Dear Mr. Moore,

Concerning the SAMUEL VERNON silver porringer with the inscription from Mary Brayton to Mary Earl, I do not have a great amount of information. I bought it from a E. Norman Flayderman, New Milford, Conn., who had very recently acquired it. I do NOT know the people who originally owned it - but have found out (or have been told, to be exact) that it was a family in Plimpton, Mass.

I shall hope to gather further information, if that be possible.

There is a possibility that I shall soon have a Jonathan Clark porringer - would this interest you?

Very truly yours

Wm McK Gannon
