Dear Mr. Moore,

Your second wire received. I have the pieces here in readiness, just in time for your early afternoon intended arrival.

With one more print to come from the photographer, as I had him take a third view of the patens, the picture presentation of the choice items available for addition will be filled out in a binder, when that print comes in to-morrow.

I can send the binder along if you find you are not getting away as soon as in the course of the next few days, if you would like to see the illustrations. The pieces are being kept under cover here as you understand until you have a chance to see them.

Very truly yours,

J. Herbert Gebelin
