Dear Mr. Moore -

In answer to your further inquiry about  
the Hurd mug -

I will definitely guarantee it as a original  
Hurd piece - It come from the Hale family  
directly - Has not been out of their hands -  
In fact, it still is unpolished - The Hurd  
mark is near the top rim just to the left  
of the handle. Mark is such (  ) First  
part of the mark is vague, but the Hurd can  
be clearly seen.

Condition: I would say an excellent -  
If further interested please write -

Yours very truly
