Subject: Army Specialized Training Program Unit Reunion

Dear Lieutenant Colonel Golonka,

I noticed today that the posters that had been added to the ASTP Reunion display over here in the Library have been removed. Before they disappear forever, I want to make sure that colored versions of the Yankee Division patch and the 328th Infantry Regiment shield are maintained. Those posters were the first time I have seen the insignia in color, and I'd like to add a glossy, color print of each to our growing ASTP file, if you can come up with those.

I have heard both in writing and in person from several people involved in the Reunion. Everyone was very pleased about the reception and kindness extended by both the speakers and cadets. That is confirmed by the fact that I am still receiving bits and pieces of memorabilia to add to our files on that unit, and I've shown most of it to Professor Robert Deasy.

As with all such displays, I have made a list of the items used in the exhibit for both record keeping and future historical research purposes. Professor Deasy mentioned that ROTC is considering some sort of permanent display including pieces that will be on view here in the Library until approximately Dec. 1, 1998. We can discuss how you want to proceed after we disassemble the display on the 1st.

Looking forward to hearing from you in December, I am,

Sincerely,

Jane M. Jackson
