September 13/99

Dear Gary:

Many thanks for your letter of Sept 2nd, and I was looking forward to a visit later this month. However, my plans were necessarily changed as I must return to Florida earlier than anticipated.

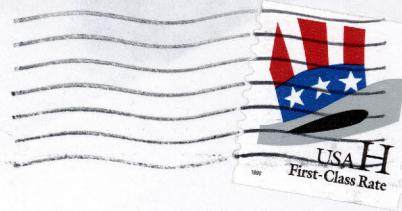

I am enclosing two photos that may be of interest. The smaller one was taken in front of Guzman Hall and the larger was taken last year....with many of the same people. The larger photo displays an enlargement of the smaller picture (on the table)

When I return to Florida, I have a group picture that was taken in front of Slavin Hall on that memorable day.

I was delighted to learn that ground was broken for the new Chapel. As you may know, we contributed \$ 1000. towards that project and I hope we will be informed as the time comes close to the dedication. I am certain many of us would like to attend that ceremony and possibly re-dedicate our placque to rest in its permanent place.

I cannot believe it is almost one year since we all gathered on the campus. We will never forget that day and we all said that your cadets were outstanding.... we never looked so good in our uniforms!.

All The Best
