Dr. Edison K. Strong

Dear Dr. Strong,

Your photograph of the Providence College campus taken while you were in the ASTP program has been sent on to our office. We very much appreciate your addition to the College's historical record. That particular snow scene does make the campus look like a military base!

It is both touching and instructive to know how much the ASTP veterans value their time here. Thank you for your thoughtful donation.

Sincerely,

Jane M. Jackson
Director of Archives
